WP3	CAPITALIZATION
<p>WP Leader</p>	<p>Polytechnic University of Marche (UNIVPM) Eralba Cela - Lecturer on "Demographic and Migration Policies" Tel: +39 071 2207239 Fax: +39 071 2207201 E-mail: e.cela@univpm.it</p>
<p>General and specific objectives of the activity</p>	<p>The general objective of the activity of capitalization is to increase the impact of the project AdriHealthMob through the realisation of a research about the state of the art on the topic of transport services for the Health and Care sector and the identification and the development of synergies with the most innovative and effective practices.</p> <p>The specific objectives of the activity of capitalization are to:</p> <ul style="list-style-type: none"> ● collect a wide range of innovative interventions in the field of transport services for the Health and Care sector; ● identify the most effective projects; ● establish networks with innovative initiatives and best practices; ● promote the project AdriHealthMob within these clusters; ● collect suggestions and recommendations useful for the best development of the project.

<p>Description of the activity</p>	<p>In a first moment, will be carried forward an investigation about the existing experiences with reference to the transport services for the Health and Care sector. More specifically, the research will be realized under the coordination of the Polytechnic University of Marche. The WP Leader, in strict collaboration with the whole partnership, designs a tool for the collection of information, also able to assure the comparability of data. The partnership identifies the best practices in their local context, also involving the networks they are members.</p> <p>In a second moment, the Polytechnic University of Marche collects the interventions identified (300) and realises a tailored analysis on relevant aspects and dimensions. The aim of this assessment is to identify the most innovative and effective projects. Hence, the partners, on the basis of their role within AdriHealthMob, will have the task and the opportunity to develop networks and with the best practices identified. More specifically, the partners most strictly involved in this phase (Business and Economy Promotion Center, Innopolis, Ionian University, Tetras, MSC, COOSS Marche) will organise and realize clustering events, as opportunity to disseminate the project and to valorise the synergies with the selected best and innovative practices.</p>
<p>Expected results</p>	<p>The expected results of the activity of capitalization are to:</p> <ul style="list-style-type: none"> ● to draw up a database of experiences and practices in the field of transport services for the Health and Care sector; ● select a sample of best and innovative practices for networking, clustering and benchmarking purpose; ● realise public events for networking and clustering, focusing on thematic aspects; ● collect a set of suggestions and recommendations for replication able to address the future development of the project AdriHealthMob.
